[57] **ABSTRACT**

The plant-mobile is a rotating plant hanger which includes a rotatable frame adapted to support a number of hanging plants. Embodiments of the plant-mobile are adapted to be mounted either from a wall or a ceiling, and the plant-mobile includes an associated ceiling or wall mounting means. The rotatable frame includes round balls or hooks from which potted plants may be hung. In addition, the rotatable frame includes radial members which may be used to support the shoots of climbing plants or vines.
